Senate Committee
Report Karle B.

A. Henry, N. Y., March 31.—
A referendum on prohibition
work is practically assured.
The Judiciary committee, by
a 4 to 3 vote, today decided to re-
peal the Martin resolution on the
prohibition referendum on June
15. The arrival of Senator J. C.
McKinley gave the vote suffi-
ciently favorably on the bill
was taken on a carry matter, in
which the yeas and nays in the
Senate practically assured, nothing
more action, it seems, can
be taken.

Drafted by William H. H.
The question which will be
put to the people was drafted
thus: In effect it is:
Should the Volstead act be
repealed so as not to identify
to future intoxicating liquors
laws?

The bill cannot pass both
houses next week. The draft
passed by the committee on the
referendum the moment of

will pass both houses and by the governor.

The governor, however, have a third thing drawn by Elliott and the test of the noumenon.

Such a referendum as the proposed would amount to a check that an expression of sentiment of the people of New Jersey.

Urges New Jersey Memo

Trenton, N. J., March 21.—(The Associated Press.)

Mr. Moore made a final effort to persuade the House to pass the bill by a letter to the Legislature to memorialize to modify the Volstead act. A special message sent to both houses.

The new of the pending bill on the subject of prohibition out the country and in congress that the legislature would be big to public sentiment if it sent such message to congress.

CHICAGO JOINS HEARD

Chicago, by action of the c

on Saturday joined officials nationwide to support a resolution. By a vote of 34 to 9, the committee decided to send a commission to Washington to voice the city's views on the dry case, according to a dispatch.

The committee will co-opt a similar delegation from Council headed by Anton J. Cermak, one of the country's leading anti-dry and double prohibitionists. Cermak, who will appoint the committee, was urged to lead it but he declined to make any announcement.

Resolution Are Suspended

The resolution providing anti-dry move, introduced by Stanley Adamkewicz (D), adopted by a suspension of the rules, is to be taken up after the Friday session. It will require 25 yeas to pass and 10 nays to veto the necessary to pass for a similar move by Ald. J. J. [?].

The next order of business is to suspend the rules and adopt the Adamkewicz resolution,

promised to be a long and stormy one, was cut short by the suspension of the rules. After a vote on the suspension the resolution adopted by a chorus of yea.

Aldermen voting against the resolution were Charles S. Egan, Jay Guernsey (8th)—SHERMAN, Niles (8th), Robert E. Barbee, D. S. McKinlay (19th), and V. Mink (37th).

Demand Called Irresistible

The demand for modernization of the Volstead act is persistent, becoming yearly irresistible, and being urged not alone by the naturally opposed to the law but by those who advocated its passage. The Arvey resolution read:

BRITISH SUBMIT SCHEME TO STOP NEW LEAGUE ROW

Would Treat Germany as
De Jure Member.

BY JOHN STEELE.
[Copyright: 1926: By The Chicago Tribune.]
LONDON, March 31.—After Geneva, what? Great Britain just is beginning to sit up and take notice of the bad blow of the league of nations meeting and now is searching for a new policy which will avoid another such disaster, which, it is felt, would be fatal to the league of nations.

Documents have been circulated among the chancelleries of all the leading league members outlining a positive policy which has been suggested by authoritative British sources. While this could not yet be described as an officially adopted policy, it is known that the British foreign office looks kindly on it and is anxious to discover the feelings of the other nations before it is adopted officially.

World Treat Germany as Member.
This policy is positive and falls in two parts. The first is that, without waiting until December, Germany be treated as a de jure member of the league.

This means that it would be considered by the league powers on every move affecting the league policy and wherever possible it would be represented on the league commissions and committees. This further means that when it is impossible, for technical reasons, to secure direct German representation, the German interests would be looked after by the league powers, even to the extent of imposing the German veto, if necessary.

The instance, it might become necessary for France and Great Britain to impose a veto on some course of action because it was distasteful to Germany.

What Is a Big Power?
The second proposal affects the status of the council powers, or, rather, a definition of what are the great powers and what are not. One of the present fears is that the permanent membership of the league council will be stereotyped in the hands of certain powers, which may in the future change its status, while the powers now small but later great will be shut out.

A solution for this situation is found in the Versailles treaty itself. One of the experts set up by the treaty outside, but parallel with the league, was the international labor organization. This body is governed by a conference which is parallel to the league assembly, and a governing body which is in the same position as the league council. The method for the choice of members of the governing body of the international labor organization was adopted as offering a way out of the league difficulty.

France May Balk Plan.
Instead of the seats in this body being divided into permanent and temporary seats, the constitution of the organization provides that only four out of twelve seats be allotted for at the conference, while the other eight seats go to the nations "of chief industrial importance." In practice this means that all the members of the league are carefully scrutinized by a special committee and placed in a general table in the order of their importance, as determined by a system of marking which takes into account many other factors than mere military strength. The eight states at the head of the list automatically obtain council seats, and no state which has fallen in the scale can retain its seat unless it can secure election to one of the four elective seats.

What is needed now is a formula for determining the order of the league states at each assembly meeting. This formula means that the proposal has been favorably received, except by France, which is put in a hole. It is faced with the demand that other factors than military force, such as industrial strength, fertility, population, etc., be considered in defining a "great" power, and it does not like it.

Send Formal Bid to U. S.

French Chamber Votes to Set Up State Monopoly of Oil

BULLETIN.
PARIS, April 1.—(AP)—The government of Premier Briand early today obtained a vote of confidence in the chamber of deputies. The vote was 227 to 130. The vote came on a clause in the government's financial bill.

BY HENRY WALES.
[Copyright: 1926: By The Chicago Tribune.]
PARIS, March 31.—By 302 to 229 the French chamber of deputies tonight voted in favor of establishing a government oil monopoly. It is expected to supersede the existing private monopoly by which a score of companies control the distribution of oil in France, obtaining the product through an oil concession from soviet Russia in a deal to liquidate the old czarist government's debt to France, particularly Russian bonds guaranteed by France and sold privately here before the war.

The ultimate idea behind the action is the hope that the French government eventually will obtain the bulk of its petroleum and oil supplies through an oil concession from soviet Russia in a deal to liquidate the old czarist government's debt to France, particularly Russian bonds guaranteed by France and sold privately here before the war.

While last year the oil import tax yielded \$35,000,000 francs (\$27,800,000), it is estimated that the

can reservations to adhesion to the league was dispatched to Washington today.

The general opinion in league of nations circles tonight was that the conference of court members would be held even if Washington should decide not to participate.

Seeks Common Action.
The invitation dated March 29 and forwarded to Washington through the American legation at Bern reads in part:

"The league council, desirous of facilitating common action by the signatories to the [league] protocol in the question with regard to the adhesion of the United States to that instrument, and after consideration of the technical aspects of the subject, has taken the decision that invitations shall be issued to the governments of the states actually signatories of the protocol and to the government of the United States to appoint delegations to meet in Geneva on Sept. 1 for the purpose of discussing any questions which it may be proper for them to discuss in this connection, and for the purpose of framing any new agreement which may be found necessary to give effect to the special conditions under which the United States is prepared to adhere to the protocol."

"Under the terms of the council's decision, the invitation to the meeting is addressed to the signatory states in their capacity as such signatories and to the United States of America. I have conveyed the invitation to the governments of the former states to have now the honor to convey to you the above invitation of the council for consideration by your government, and to request that you will be so good as to inform me whether your government will find it possible to be represented at the next meeting in question."

Reservations Speak for Self.
Washington, D. C., March 31.—(AP)—There is grave doubt here whether any good purpose would result from sending American representatives to the Geneva conference on American reservations to the world court, but officials apparently have reached no final decision.

Regardless of whether an American delegation is sent, the American reply to the conference invitation is expected to set forth that the reservations are regarded here as speaking for themselves, and to emphasize that the United States cannot enter into any discussion contemplating their amendment or interpretation.

Germany to Enter League Board.

BERLIN, March 31.—Germany will accept the league of nations' invitation to take active part in the league's committee for the enlargement of the league council, the German cabinet decided today. Another cabinet meeting will be held with President von Hindenburg presiding, after Easter to decide the details of Germany's collaboration with this committee. A diplomatic note has been dispatched to Geneva to ascertain the exact character of the work of the committee.

Members of the cabinet who are allied with the Conservative parties will favor Germany's collaboration only if all possibilities for misunderstandings are cleared before the committee meets.

government monopoly will derive profits exceeding 1,500,000,000 francs (\$50,000,000) annually.

The scheme provides for the condemnation and confiscation of existing properties in France for receiving, storing, and distributing oil, with reimbursement of the private owners. It is estimated that about 400,000,000 francs (\$15,000,000) will cover the acquisition of this property.

The radical socialist leader, M. Margaine, sponsored the oil scheme. M. Decoin, former finance minister and member of the French committee negotiating the Russian debt, and a firm advocate of renewing full relations with Moscow, opposed parliamentary action on the monopoly now, saying it was embarrassing and tied the hands of the debt committee. He issued a warning that such sudden, peremptory action might lead to serious difficulties with powerful United States and British oil interests now doing business in France.

In the absence of Ambassador Myron T. Herrick, who is touring the Moroccan front with French army officials, Sheldon Whitehouse, counselor of the embassy, today received the state department's note relative to the French government's proposed attempt to make petrol a state monopoly. Mr. Whitehouse indicated the secretary of State Kellogg merely wishes the French government apprised of the opinion held by the United States and does not envisage making any sort of protest, as the matter obviously is one for the government and parliament here to decide.

REPLIES TO DRY ATTACK ON MALT TONIC PERMITS

Andrews Says Brew Is
Not a Beverage.

Washington, D. C., March 31.—[Special.]—Floods of requests for permits to manufacture the new malt and wine tonics with an alcoholic content of 3.75 per cent recently authorized by the prohibition unit poured into the office of Gen. Lincoln C. Andrews, prohibition czar, today.

What will be done with these requests was not announced, but Gen. Andrews, who yesterday remained quiet under a deluge of complaints against the department's new policy, came out with an explanatory statement today in which he denied reports that the new malt tonics could be used as beer. In addition, his statement carried the threat that if it was found that the new tonics were used for beverage purposes, they would be withdrawn.

Makers Are Responsible.
"Agreements are being entered into with old reliable houses to restore to the market certain established tonics on the basis that the manufacturer accepts the responsibility for their distribution for legitimate purposes and agrees to withdraw his product from any market where it appears that the tonic is being used as a beverage," Gen. Andrews said.

"This is practical and reasonable, and is done for the purpose of making these tonics available for those who need them. A malt tonic of 25 per cent solids is by no stretch of the imagination a beer."

The general statement followed another hectic day in the fight for modification of the prohibition act during which both the dry law and the men who made the nation dry, were attacked in congress.

Representative Celler [Dem., N. Y.] today scored Wayne B. Wheeler, general counsel for the Anti-Saloon league, giving special attention to the articles now being published by Wheeler under the title, "The Inside Story of Prohibition Adoption."

"Wheeler's articles," asserted Celler, "show how senators, representatives, and Presidents were browbeaten and forced to yield to the will of the Anti-Saloon league. Money, religion, duress, anything was used to elect dries to congress. The whole business smells to heaven. Patriotism was nothing compared to prohibition."

"With the cunning of a new Machiavelli, Wheeler boasts of an annual expenditure of \$2,500,000. That is what

HOOSIER SEEKS SEAT IN U. S. CONGRESS ON MODIFICATION PLANK

Fort Wayne, Ind., March 31.—[Special.]—Urging the modification of the Volstead law "for the promotion of temperance," W. E. Eickhoff of Fort Wayne, former state representative, today announced his candidacy for the Democratic nomination for congress in the Twelfth district.

"Just as the old improperly regulated saloon traffic had within itself the seeds of dissolution, so has this opposite extreme, absolute prohibition, within itself the seeds of dissolution," Eickhoff said in his announcement. "Patiently, the American people have watched this spectacle for seven years. They have witnessed a most pathetic failure."

"I declare myself opposed to the old abomination, known as the saloon traffic, and I equally declare myself against the pernicious abomination known as the bootlegging industry. I declare for the modification of the Volstead act to license the sale of beer and wine under government supervision."

"We must rid ourselves of this governmental heresy of prohibition and substitute for it an era of voluntary temperance, honesty, and decency."

PLASTERERS SET SPRING PACE FOR HIGHER SCALES

Singled out as a pacemaker in the annual movement to boost wages for Chicago building trades, the Plasterers' union, it was learned last night, has presented demands for an increase from the present \$12 to \$14 a day, with a 40 instead of a 44 hour week.

The employing plasterers are divided into two associations.

Builders say the granting of the plasterers' demands would bring demands from other trades to advance wage scales from \$1.50 to \$1.75 an hour. Those trades include the electricians, steamfitters, bricklayers, lathers, plumbers, and painters. Scales demanded would include changes from \$1.37 1/2 to \$1.50 for carpenters, cement finishers, ironworkers, hoisting engineers, and sheet metal workers.

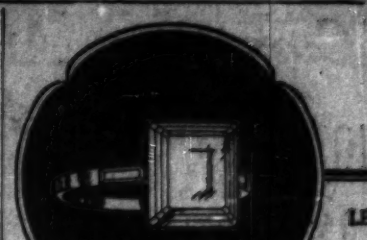

Since the building boom started here in 1923 the contracting plasterers often have paid \$2 an hour and sometimes \$10 a day bonus. Saturday afternoons and Sundays the rate was \$4 an hour, or \$32 for eight hours at "double time."

At the height of the boom many plasterers would work only on Saturday afternoons, Sundays, and perhaps one other day during the week.

LARGE PARTS OF
MARS ARE DRY,
SCIENTISTS SAY

One half of Mars is as dry as the Sahara desert, according to a spectrum study of that planet reported yesterday in the astrophysical journal of the University of Chicago.

This study, conducted by Walter S. Adams and Charles E. St. John, at Mount Wilson, shows accurately how much water vapor is present in the Martian atmosphere over the hemisphere that was turned toward the earth when the observation was made. The quantity of water vapor there, area for area, was found to be six per cent of that over Mount Wilson and three per cent of that over Pasadena, Cal. According to the scientists this indicates extreme desert conditions over the greater portion of the Mars hemisphere as observed.

EACH time that a diamond changes hands prior to its retail sale... its final selling price goes up. But this doesn't mean that its value increases.

To avoid these unnecessary "in-between-profits" is the basic reason why LEBOLT'S import all the diamonds they offer at retail. When you buy a diamond at LEBOLT'S... it is the first time that diamond has been sold in America.

RACE FOR COUNTY CLERK; RECORDS TOLD

Biographical Sketches of Primary Candidates.

This is the fifth of a series of biographical sketches of the candidates for nomination at the April 13 primary. Following are the candidates for county clerk:

Robert M. Sweetser.

Robert M. Sweetser, who is finishing his fourth term as county clerk, is the regular Democratic candidate for nomination to that office. He has no record of political apprenticeship, but he remains one of the best vote getters in the organization. He came out of business, that of general salesmen, for George V. Farwell & Co., to enter the new for county clerk in 1911 and has remained in the county building ever since.

In 1915 and again in 1919 he ran against William Hale Thompson for the mayoralty. The first time Thompson beat him by 127,000 votes and the second time, with Macley Hoyne and John Fitzpatrick, he polled 259,828 against 238,000 for Mr. Sweetser. Mr. Sweetser usually runs ahead of his ticket and has several times carried the country where which are heavily Republican. His office is run on principles of efficiency and courtesy. "How can I best serve you?" is one of his mottoes. He was a member of the executive committee of the state council of defense during the war. He has retained his connections in business and has been president of the Illinois Commercial Travelers' association for twenty years. He is in demand as a dinner speaker and is interested in sports and recreations, especially billiards.

William C. Scherwat.

William C. Scherwat, former member of the board of review, is the candidate of the Densen Republicans for nomination for county clerk. He is a member of the law firm of Iroquois and Scherwat and was formerly an assistant probate judge. He enlisted in the army, serving in Texas in 1916 and in the world war from 1917 to 1919, ending as captain. He is interested in athletics, belongs to the German club, the Collegiate club and the Chicago Turn-Gemeinde, and lives at 8 Elm street. In 1924 he ran for the office of coroner against Oscar Wolff, polling 108,794 votes.

Ray Millner.

Ray Millner, first assistant attorney of the sanitary district, is the candidate of the Crowe-Barrett Republican organization for the nomination for county clerk. He is a graduate of Chicago Kent College of Law and served as an assistant attorney general under Edward J. Brundage in charge of the inheritance tax office in Chicago. He has lived in Norwood for 26 years and is a member of the American, Illinois and Chicago associations, the Hamilton club, and an associate member of the Chicago Real Estate board.

Notes of the Day in Politics

Attorney General Oscar E. Carlstrom is billed to take the stump at the Olympic theater at noon today, for the service men on the Crowe-Barrett county ticket—Joseph P. Savage, for county judge; Francis L. Boutell, Harry A. Newby, and Joseph P. Carahan, for county commissioners; and Harry Klatsco, for Municipal judge.

Candidates on the Crowe-Barrett Republican ticket and the regular Democratic slate will appear on the platform at the Ashland Boulevard auditorium tomorrow night at a mass meeting held by the Wage Earners' league, which endorsed both slates for the primaries.

Senator Densen is scheduled to speak at the following meetings tonight: Library hall, Maywood; St. Catherine's church, 3709 Langley avenue; Prudential hall, Halsted street and North avenue.

Theodore M. Steiner, Densen candidate for state senator in the 25th district, has been endorsed by the Chicago Principals' club, in recognition of his record on school legislation while a member of the lower house.

Municipal Judge William Petzer has received the endorsement of the International Brotherhood Teamsters' Joint Council, including twenty-seven locals with a membership of 22,000. He also was endorsed by the Wage Earners' league.

"More and wider paved roads for Cook county" is a leading plank in the platform of Francis L. Boutell, Crowe-Barrett candidate for president of the county board.

"Home rule and reapportionment" is the slogan of Joseph F. Topf, Densen-Lundin candidate for the legislature in the 15th district.

A group of lawyers, headed by L. Mason Lewis, has organized a legal committee to aid the candidacy of William C. Scherwat, Densen nominee for county clerk.

Leroy Millner, Crowe-Barrett candidate for county clerk, has been endorsed by the Dove club, a leading Norwegian organization.

CHICAGO IS READY TO SHOVE PARIS OUT OF THIRD IN WORLD RANK

Chicago, now known as the world's fourth largest city, may move up a notch and shove Paris out of third place in 1930 if the census authorities heed a resolution adopted by the city council yesterday.

And for that matter, in the words of Ald. John Toman [23d], who introduced it, "we already have Paris looking like Peoria in comparison with us anyway."

It's like this: In the federal census now the population of Chicago is limited strictly to the people within the city limits. Under terms of the resolution, the figures would include all the populous area within fifty miles of the city.

Exactly the same procedure was adopted successfully by Boston recently. Ald. Toman declared, and it has been in effect for years in Paris, Berlin and other European cities. If Chicago were made to include its suburbs in the census, he said, it would easily rank next to New York and London in the world's population rating.

Senator Essington Moves Here to Practice Law

State Senator Thurlow G. Essington of La Salle county, Republican primary opponent of Gov. Len Small in 1924, has moved to Chicago and opened law offices in the Illinois Merchants Bank building. He has formed a partnership with George B. McKibbin, formerly of the firm of Good, Childs, Bobb & Westcott. Although he is keeping his legal residence and law office connections in Streator for a time, Senator Essington has moved his family to Chicago and is residing at 1220 East 56th street.

CARRIED FROM FIRE.

B. G. A. OFFICIAL BACKS BARRETT DESPITE TICKET

On the heels of a similar endorsement by George W. Dixon, former treasurer of the Better Government association, William C. Hollister, present treasurer of the organization, yesterday recommended the candidacy of County Reviewer Charles V. Barrett for the Republican nomination despite the endorsement of his opponent, Coroner Wolff, by the B. G. A. committee on candidates.

"The functions of the board of review have never been performed in a more conscientious and intelligent manner than by the present board, and a large share of the credit is due Charles V. Barrett," Hollister said.

"This is my judgment as a law printer who has gained a somewhat more intimate knowledge of the working of the board of review than is possessed by the average loop employer of labor. Not to reflect Charles V. Barrett would amount to putting a premium on inefficient service."

5 HELD AS STORE ROBBING GANG; 1 SLAIN, 1 HUNTED

More members of the robber gang of John Becker, who was killed Tuesday night in an attempted holdup, were arrested yesterday and police announced they now have all but one of the men who are accused of looting fifty stores since January.

Rocco Stefano, alias Frisello, 2008 Grand avenue, and with apartments also at 817 Edgewood place and on Sunnyside avenue near Sheridan road; Sidney Framm, 421 West Sixty-fifth place, and his roommate, James Di Palma, were the latest to be taken into custody. Guy Schiela, 2002 Grand avenue, and Fred Seaman, 1937 West Grand avenue, were seized the night of Becker's death. Their wives also were held for questioning.

Anthony De Marco was being sought. He was named in the confessions of the prisoners.

URGES CONGRESS TO FIX DIVERSION OF LAKE WATER

Army Engineer Explains Waterway Report.

[Chicago Tribune Press Service.]
Washington, D. C., March 31.—(Special).—Final determination of the amount of water which Illinois should be allowed to divert from Lake Michigan into the Illinois river waterway should be made by congress rather than by the war department, Gen. Harry Taylor, chief of engineers, told the house rivers and harbors committee today.

Gen. Taylor pointed out that while he had recommended the construction of a waterway which would use 5,250 feet of water for the present, that this diversion would gradually be reduced by the war department, unless congress set a definite diversion.

No definite recommendation. "We purposely did not recommend a final definite diversion," Gen. Taylor said. "My understanding was that we were to report on the practicability of an Illinois river waterway and how it could be provided most economically."

Hearings will be resumed tomorrow. In the meantime, work on the final draft of the rivers and harbors omnibus bill has been started. From present indications, it will include the Illinois project and an appropriation for a further survey of the all-American ship canal project which was recommended by Gen. Taylor yesterday.

Illinois representatives are optimistic that the committee will act favorably on their proposal for a 10,000 cubic second feet diversion. If this falls they will go before congress with a waterway project modeled on the recommendations of Gen. Taylor.

Taylor Outlines Plan.
As gathered from his answers today, Gen. Taylor is in favor of beginning

construction on a waterway 8 feet in depth, 200 feet wide and would cost approximately \$1,350,000. He recommends removal or partial removal of the two dams erected by the state in the federal end of the river, and the retention of the two federal constructed dams. The latter two could be removed later if necessary.

While his project would use the sanitary district's 5,250 feet water diversion for the present, Gen. Taylor said a waterway constructed as he had outlined would be suitable for navigation whether 2,000 or 10,000 cubic second feet of water is diverted at Chicago. Gen. Taylor said it would take two years to complete the waterway.

Banker on 2 Year Drunk, Wife Says, Wins Divorce

Testifying that her husband has been continually drunk for two years, Mrs. Emily A. Hill yesterday obtained a divorce before Superior Judge Joseph Sabath from Forest Hill, former vice president of the Hill State bank and son of Alonzo Hill, ex-president of the same bank. The Hills were married in 1920 and separated on Oct. 1925, according to the bill.

What Are You Doing For Your Puny Child?

For weak, frail, under-developed children—and especially those that have rickets, and need a sure builder that promotes the growth of teeth and bones, cod liver oil is the one medicine supremely nothing helps like it.

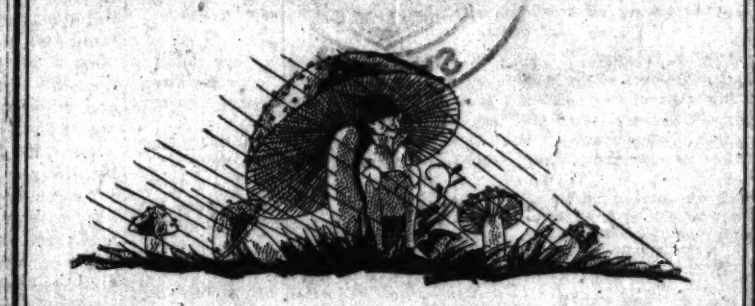

But it is nasty and repulsive and smells and tastes like a medicine. Children love them as they do candy, because they are sugar coated and easy to take. One boy gained 11½ pounds in seven weeks, and a now healthy and happy—thousands of other children have grown strong and robust.

Sixty tablets for 80 cents at Owl Drug Co. and all druggists—but be sure and ask for McCoy's—the original and genuine.

Give them to the sickly, frail child for 30 days and if they don't improve, wonderfully, your druggist is authorized to hand you back the money you paid for them.

AN ADVENTURE WITH
JOHN LAW.

David Stark was arrested in New York and Detective Sergeant James Hogg of the detective bureau has been sent to bring him back. Stark is a person of no seeming importance, but he has been able to tie the law in Chicago into knots. He was a pickpocket. He practiced his trade on William B. Austin of 1245 Astor street on the platform of a street car one day in 1934. Austin, a lawyer, and a policeman chased him and caught him. That began an interesting experience for the citizen who had been robbed. He found that if he was to have any chance of getting the pickpocket punished he would have to devote a large part of his life to appearing in court, checking up on spurious bonds, and withstanding political influence seeking to have him withdrawn the prosecution.

The seemingly unimportant Stark was very important. Probably few citizens would have stuck to the case through the continuance and the bond jumping pickpocket and his friends were able to maneuver. Fifteen continuances were the least of his troubles. Stark switched lawyers as the time for the session of the legislature approached last year and retained Thomas W. Reilly, state representative. Then it was all off for the period of the session. Reilly being busy at Springfield. When the session closed Stark's wife or some one else was sick. Stark went to New York and decided to remain there.

LET CATALONIA TRY
THE LEAGUE.

Catalonia, Spain's richest, most progressive province, wants freedom. Centuries of oppression have failed to shake the Catalan's faith in the struggle for liberty. That oppression culminates now in the exile from their homes by the Madrid government of leading lawyers of Barcelona for no other crime than that the Barcelona bar published its official list of lawyers in the Catalan instead of the Spanish language.

Catalonia produces about one-third of Spain's wealth and pays approximately the same percentage of taxes. In return for its effort it gets nothing but a costly war against Abd-el Krim in Morocco. The Rif war is unpopular in Barcelona. The Catalan justly complains that it benefits him not at all. Perhaps, also, he finds sympathy for another people who are struggling for some degree of liberty and self-government.

MILITARY SCHOOLS OF
DEMOCRACY.

Nine new citizens' military training camps will be conducted this year by the government. This additional number will make fifty-two camps in all distributed throughout the country.

"The citizens' military training camp idea has grown steadily since it began in 1921, when there were ten camps with an enrollment of 11,000 men. More than 30,000 young men attended the camps last year, and this year's attendance is expected to be 35,000.

One of the new camps is to be at Fort Sheridan, where there will be accommodations for training 1,500 citizen soldiers. With a camp at its disposal, in addition to Camp Oster, to which Chicagoans have been sent in the past, Chicago should more than fill its quota of volunteer recruits.

The citizens' military training camps are in keeping with the ideals and the spirit of American preparedness. They train a reserve army of volunteers, who in time of national emergency will fill the commissioned and noncommissioned ranks of the national army recruited under the selective service clause of the national defense act.

and live a strenuous life in the open for the sake of a common patriotic cause.

It was Gen. Pershing who said of the camps, "The men grow more aggressive, more confident; they get the spirit of leadership and initiative and in every way become better able to meet the problems of everyday life."

It was President Coolidge who called them "an essential in the plan of national security" and who termed them "essentially schools in citizenship."

It was Theodore Roosevelt who used the words which the Military Training Camps association prints at the beginning of its booklet, "The Story of the Camps."

"The tent where boys sleep side by side will rank next to the public school among the great agents of democracy."

WHAT AFTER MUSSOLINI?

On the seventh anniversary of the birth of fascism, Mussolini renewed his faith in his conquest of representative democracy and his confidence in the disappearance of the parliamentary system as an outgrowth method of government.

These exalted moments of Mussolini are of undoubted value to the Fascist control in Italy. A dictatorship must rest on active fervor or on force, and it is easier to apply the force if fervor diminishes the need of it. The dictator has a talent for spiritualizing nationalist emotions. The material aims of ambition are given a fire of high purpose and the most active forces of patriotism are enlisted.

Mussolini's knowledge of the wreck from which he was undoubtedly saved Italy may give him considerable sincerity, but his pride is in the form of government which has the least permanence and the least hope of it. It is derived from nothing but a man's will and it disappears with that will.

Cromwell, with his independent of the Eastern association, had a force of indomitable soldiers with a fervor fanatic can only pay tribute. He, as a statesman, was groping for the ideas which later came into being in the representative democracy of the American republic. He saw part of the scheme, but not enough of it, and his dictatorship ended with him.

A NEEDLESS CAUSE OF
INTERNATIONAL
IRRITATION.

From now on during the spring and summer months some thousands of Americans will be considerably irritated by the requirements of certain foreign governments, notably Great Britain, France, and Italy, that prospective visitors from the United States pay the sum of \$10 apiece in order to have their passports visited.

What these indignant nationalists must remember is that America started the costly visa game, and foreign countries did nothing but follow suit. It would seem that it is about time to bring the nuisance to an end.

The United States imposed the \$10 charge for an American visa on a foreign passport with the assertion that it was right that immigrants should help defray a part of the expense incident on their inspection at Ellis island and other ports of entry. It was further asserted that no distinction between classes of foreigners coming into the United States could be made; therefore the transient visitor, not subject to inspection, must pay as much as the permanent immigrant.

Editorial of the Day

THE PROMISED LAND.
[Los Angeles Times.]

The pay envelope of the average American worker will purchase more of the necessities and luxuries of life than that of any other workers in the world. Statistics supporting this assertion have been made public by the national industrial conference board. They are based on an investigation of wages and prices in fifty countries for a period of twelve months.

Yet there are those who still prate about the down-trodden masses in the United States, about how the rich are getting richer and the poor poorer, who still cling to the Henry George theory of "Progress and Poverty."

Capitalist America is the "hate voice" of Socialists, radicals, and communists the world over. One wing of the Democratic party is now denouncing the Coolidge administration as a government of and for so-called big business, which is supposed to typify the moneyed interests.

At each succeeding session of the Third International Trotsky rises and asks with dramatic tones and gesture when the American was slaves will rise and overthrow the capitalist system. He does not seem to realize that the only industrial servitude in this country is that imposed by the labor unions. The American workers are not slaves to wages. They are all workers, whether with muscle or brain; and our only slavery is that to duty, a willing servitude.

As a people we get more out of life for what we put into it than any other. When all about us, we have many complaints, and their ingratitude is based on ignorance and a desire to harvest fields they have not planted.

AN UNFAIR COMPARISON.
The teacher (a lady of uncertain age) was trying to teach little Pat the names of the Kings of England.

"When I was your age," she said, "I was teaching many children the names of the Kings backwards and forwards."

"I don't doubt that you," said little Pat; "but when you was my age there wasn't many Kings."

—Irish Weekly Times.

How to Keep Well.
By Dr. W. A. Evans.

Questions pertinent to hygiene, sanitation, and prevention of disease, of matters of general interest, will be answered in this column. Where space will permit, the subject is not suitable, letters will be personally answered, subject to proper limitations, and where a stamped, addressed envelope is enclosed, Dr. Evans will make a diagnosis or prescribe for individual diseases. Requests for each service cannot be assured.

PAGET'S DISEASE.

According to my dictionary, there are two diseases which go by the name of "Paget," the two of them being known as "Paget's disease." Sir James Paget was a distinguished British surgeon who lived during most of the nineteenth century. He was unusually lucky in getting diseases named for him. Or was it luck? If a man who is distinguished describes something, his name is apt to be used in naming the disease. Paget's disease, short, snappy, easily spelled, easily pronounced and catchy.

In his book on the history of anatomy Charles Singer tells of one of the greatest discoverers that ever existed, the field of anatomy, but for whom nothing was named, while a far lesser light, a far poorer discoverer, and a far less important anatomist, had his name preserved in the names of several anatomical parts.

DEBATING MEANING.
Chicago, March 24.—(To the Legal People.)—I live on a corner lot and have a strip of land about 12 feet on the side where I grow bushes and have several trees and have a nice lawn. This requires both time, work, and money. Last summer two automobiles ran across the lawn and dug big holes into it. Now just yesterday a large car ran across the sidewalk onto the lawn and made large holes in it and almost knocked down a tree.

WALKING THE HIGHWAY.
La Grange, Ill., March 27.—(To the Legal People.)—There is a law to the effect that pedestrians walking on highways, where there are no sidewalks, shall be liable for damages if they are killed or injured by a motor vehicle. I am a pedestrian and I am walking on the highway. I am a pedestrian and I am walking on the highway. I am a pedestrian and I am walking on the highway.

SAID GENERAL GRANT—

"I, H. L. Grant, was justified in declaring war on Mexico in 1846, why did U. S. Grant, who was in as many battles in that war as it was possible for one man to be, write in his memoirs, 'To this day I regard the war as one of the most unjust ever waged by a stronger against a weaker nation?'"

WHY DO I NOT WRITE OF LOVE?

Why do I not write of love, my dear?
Ah, there are many things of which to tell
Beside love's ecstasy and love's fear;
Things that love can never parallel.

I would tell of love's born of fire
Caught in the fragile form of Venetian glass
Or a silver point I saw and much desire,
Or a basket woven delicately of sweet grass.

HIS TEARS.

When you stood on the hill of the olive orchards
and gazed so pensively across the Kedron to where
the wall of tears of your father shone like gold in
the furnace of a late April sun, why did you cry?
You had not cried that day when, weaned with the
journey, you sat beside the well of Jacob, pinnacles
and without food, and yet with a hunger too deep
for bread to touch; you had not cried that night of
the storm when your boat drifted to the coast of
the Gadarene country where the shouts of one
demon possessed were louder than the roll of the
thunder until you laid your healing hands upon
him and he was quiet.

Chicago, March 23.—Under date of March 23 you published a letter from Mr. G. G. Boorman, in which he complained that he had not been summoned for jury service in the past twenty-five years, in spite of the fact that he had been on the polling books continually. Consequently he imagined that there must be "something radically wrong" in the jury commissioners' machinery.

DISCOURTEOUS POLICE.
Chicago, March 23.—Naturally the jury was prejudiced against the police. The other afternoon a friend and I were quietly riding along in the large purplish car when we were suddenly and rudely forced to the curb by a police officer and we were greeted with a loud mouthed "Where the hell do you think you're going?"

FOUR LITTLE WORMS, HE HAD NO MOTHER TO GUIDE HIM.
Dick: I hope your Rush street worm and all his ancestors and all his progeny freeze to death this day.

STOP! LOOK! LISTEN! NO! NO! NO!
Do not put that sugar in your coffee! That sugar is salt. No! Do not call up Mr. Cagel at Lincoln 2410 or Mr. Barker at Lawndale 2188. The first is the Lincoln Park Zoo, the second is the Dog Pound. No! Do not kick the pretty silk hat there on the walk. There is a brick under the pretty hat. BE CAREFUL, FRIENDS! 'TIS APRIL FIRST!

SNOWBOW ALBERT, THE HUMAN EGG.
Dick: Talk about your Easter egg! My Easter egg is going to be Snowbow Al of the Line. Snowbow Al and his bedtime stories. The Master egg hunt on Sunday isn't going to be a marker to the hunt I'm going to put up Saturday morning for that book of Snowbow's with the aurora borealis smeared all over the cover. That's my idea of a real Easter egg for the whole darned family.

DEMOCRATS CALL HALT ON SMALL'S ASSEMBLY PLANS

Charge Governor Would
Rule Treasury Also.

BY FRANK BUTZOW.

Battle broke out between the Republican and Democratic county campaign cleared up a bit yesterday only to show another combat in the making—Gov. Small's desperate attempt to elect a hand-picked legislature and a state treasurer.

Democrats took the firing line with a pronouncement that the warring Republican factions, in the bitterness of their local conflict, are forgetting a great state issue. At the same time, Small began to flood the state with letters appealing in carefully disguised language for a legislature that will not impeach him and a state treasurer whom he can control.

The governor's treasury candidate is William F. Stratton, Fred Lundin's ally in Lake county. He is a member of Small's cabinet, having been elevated to the directorship of the new department of conservation last year after four years as chief game warden, a post he obtained while looking after the governor's interests in Lake county during the Waukegan trial.

Contributors Are Indignant. Indignation has increased among many voters and other contributors to the governor's \$1,000,000 "defense fund" with renewed charge that the money is being used to nominate Stratton and friendly legislators. Gov. Small's letter also stressed the importance of the election of the Republican county organizations friendly to him in the 1927 counties next week. The Democratic onslaught was led by South Park Commissioner M. L. Kane, former minority leader of the house, who is a candidate to return to the legislature to lead the impeachment fight. Arthur Manning, an assistant corporation counsel and Democratic candidate for state senator in the 25th district, said Small not only wants a legislature that will not oust him but which will pass a bill nullifying his bid to the state.

Although there are four candidates in the Republican primary for state treasurer, the contest is between Stratton and Garrett Kinney of Peoria, long-time enemy of the governor. Although Kinney is virtually one of the main managers, but Kinney is for Kinney.

Ballot Boxes Settled. In the meantime the litigation and other various complications which were holding up the ballot printing were removed yesterday. The name of the late Appellate Court Clerk Francis P. Brady stays on the Republican primary ballot despite his death, the attorney on the ticket to be filled by committee action if Brady is nominated.

One H. H. Elmer, candidate for the job, withdrew his injunction bill when Circuit Judge Ira Rymer indicated that he had required him to let Brady's name remain on the ballot.

Appellate Court Judge David F. McHugh dismissed the three election officials arrested on State's Attorney Rymer's order Saturday night. The

BETTY WERNER STICKS TO STORY AGAINST DURKIN

Says She Remains on the
State's Side.

CRIMINAL COURT.

Adam Gibson, formerly sentenced to 10 years in the reformatory; John H. Bauer, confidence game, sentenced to 1 to 10 years in the penitentiary, by Judge William N. Gammill.

Ralph Chavira, Luther Dousar and Edward Hill, robbery, sentenced to 3 to 20 years in the penitentiary. Gustav Harrison, robbery, sentenced to 3 to 20 years in the reformatory by Judge Thomas J. Lynch.

Betty Werner would hesitate to send any man to the gallows, she said yesterday, but she would just as soon Martin Durkin went there as any one else.

Betty, questioned yesterday by Assistant State's Attorney Michael Romano, declared she will tell the whole truth when Durkin comes up for trial before Judge Harry B. Miller May 3, for the murder of Edward G. Shanahan, department of justice agent.

Truth Won't Help Durkin.

"And if I tell the truth I surely can't testify for Marty," she said in her apartment in the Hotel Sherman, where with a policeman and her 7 year old son, Jackie, she is being held as a star witness for the state. "I'll tell just what I know about Marty and I'm on the state's side no matter how much Marty wants me or needs me. Nothing can alter my intention of testifying for the state."

"I just wrote to cheer him up," she said, when asked why she replied to Durkin's letters on which the defense, it was said, had based hopes of her changing her mind.

"Anyway," she added, "those letters were written by some one else and copied by Marty."

Denies She Ever Loved Him.

Betty insisted she was not deceived by any professions of love from Durkin. "He knows as well as I that we were never in love with each other," she said.

"Marty was infatuated with me, all right," she admitted when reminded that a man doesn't usually spend his time and money on a beautiful girl because of the baby of her first husband. "But it was not the kind of love that leads to the altar," she said. Reviewing her testimony given some time ago to the state, Betty declared she would not repudiate a word of it.

"It's going to work hard after it's all over," Betty said. She was attractively gowned in velvet chiffon trimmed with large purple flowers.

KLINGENBERG, EX-BANK HEAD, SUED BY WIFE

Beatings Charged in Separation Bill.

William J. Klingenberg, whose resignation as president of the Sheridan Trust and Savings bank, 4738 Broadway, last Saturday, came as a surprise in north side financial circles, was made defendant yesterday in a suit for separate maintenance filed in the superior court by Mrs. Elizabeth Morrill Klingenberg, through her attorney, Charles H. Erbstein.

The banker, who is a millionaire and has an income of \$100,000 yearly, according to the bill, was accused of extreme cruelty by his wife. Klingenberg's reputed rough tactics also broke up his first marriage, to Mrs. Clara Klingenberg, who obtained a divorce in 1924, it was alleged.

Says He Took Her Funds.

Not only has her husband refused to support her in accordance with his income, but he took from her stock worth \$2,500 and cash to the amount of \$10,000, the wife charged. Klingenberg, it is said, spent the \$10,000 on a midwinter vacation at Palm Beach.

Mrs. Klingenberg, who is the daughter of a wealthy southern family in Fort Valley, Ga., was married to Klingenberg in June, 1924, shortly after the banker had been divorced from his first wife.

They lived together happily in the Klingenberg home at 3739 Sheridan road until July 4, 1925, the bill stated. Then, the bank president climaxed an independence day celebration by battering his wife into near unconsciousness, she charged.

Charges She Had to Leave Him.

Other attacks followed until Mrs. Klingenberg was forced to leave her husband, she says.

Klingenberg, whose alimony settlement with his first wife was approximately \$100,000, is to be asked to pay a large monthly amount to the present Mrs. Klingenberg. In addition to his bank stock, the banker has holdings in the Loren Miller company and the Lawrence Trust company, according to the bill.

Klingenberg was in the banking business in Chicago for nearly 35 years. He started as a teller in the First National bank in 1891.

BUCKEN RETURNS;
CALLS MEXICAN
DIVORCE LEGAL

Edward W. Bucken, Board of Trade member, came back willingly to Chicago yesterday to face trial for bigamy. His defense is that he divorced his former wife and the present complainant, Mrs. Clara Bucken, in Mexico.

Bucken finally waived extradition after several days of court procedure in Fort Wayne, Ind. He surrendered to Lieut. Hugh McCarthy of the Chicago detective bureau, who held the warrant.

Bucken said his divorce was granted in Morales, Mexico, Feb. 24, and that therefore his subsequent marriage to a Fort Wayne society woman is legal.

BROWNING, DADDY OF CINDERELLAS, FINDS A NEW ONE

New York, March 31.—(Special.)—Edward W. Browning, the rich real estate man who played "Daddy" in the celebrated Cinderella, came last year, is back with us again.

This time the heroine is a girl going on sixteen.

Frances Heenan, who lives with her mother on Washington Heights, Mr. Browning refused to confirm or deny today a report that he is going to marry Frances when she is sixteen, next summer.

"There are some questions I can't answer," he remarked, "and that's one of them."

A Lovely Girl, He Says.

"Frances," said Mr. Browning, a gray haired gentleman who sells real

estate most every day and goes dancing most every night, "is a lovely girl—a lovely girl."

She is 5 feet 7½ inches tall and weighs 145 pounds without her coat.

"And very refined. Refined in every way. To talk to her you wouldn't think she was only fifteen."

Mr. Browning said Miss Heenan met with a bad accident last Saturday. While she slept, some "friend" threw acid in her face and she is now under the constant care of nurses, with bandages about her head. Eight detectives, Mr. Browning said, are trying to find out who threw the acid. Nurses are with her day and night, and she is being guarded "in every way" just she meets with accident again.

Decided to Educate Her.

Mr. Browning said he met Frances at a sorority dance about three months ago and was so taken by her looks and manner that he has decided to educate her. Despite his refusal to discuss his reported engagement to the girl, Browning's secretary told callers that the real estate dealer expected to announce their engagement in June when Frances will be sixteen.

In recent months, Mr. Browning's attentions to the girl have been assiduous. He drove her frequently in the Rolls-Royce limousine in which Mary Louise Spaul was so frequently a passenger in those bygone days when she was the adopted daughter of the real estate man and before newspaper publicity disclosed the surprising fact that her age was 21 instead of the 16 to which she had confessed. After that discovery the adoption was voided.

WHITEMORE AND HIS BANDITS FACE 12 INDICTMENTS

New York, March 31.—(AP)—The mills of the law today were grinding out indictments against Richard Whitemore and his band of jewel robbers, whose depredations have totaled nearly \$1,000,000 and have cost several lives. In all 12 indictments were returned during the day.

Indictments also were returned against two alleged "fences" in Brooklyn, after Florence Carter (the former chorus girl who was called to hide her true identity) had been cloistered with the Kings county grand jury. The names of the indicted "fences" were not made public, but it was said they were prominent jewelers believed to have disposed of the loot of several of the Whitemore robberies.

In Manhattan the grand jury brought superseding indictments against Whitemore and Leon and Jacob Kraemer, charging robbery in the first degree as second offenders.

RANCHER RAPS LEITER ACUMEN IN ESTATE SUIT

Duels Joe's Lawyer with
Repatee from Stand.

BY GENEVIEVE FORBES HERRICK.

J. L. Horton, Wyoming's cow-punching rancher and an eastern automobile company's go-getting salesman of the open cross roads, cashed in on the double talent yesterday in Judge Denis B. Sullivan's court when he talked up right smart to Attorney Henry Russell Platt, counsel for Joseph Leiter.

Called to the stand by Attorney Frank Scott, representing Lady Margaret Hyde, Countess of Suffolk and Dorset, in her charges that her brother, who has mismanaged the estate of their father, Levi Z. Leiter, Mr. Horton testified to Joe's mercurial business ability.

Then, on cross-examination by Mr. Platt, he was asked to lather on the western plains long enough to admit, reluctantly, that sometimes, maybe, he was the sugar beet of the ranch, or, at least, that he had a temperamental up and down curve, and not Mr. Leiter's burning judgment.

Funny for Every One but Them.

The impact, and it was a vigorous one, between the two men was amusing to everybody save those two men. Mr. Platt, the lawyer, was quiet, easy, and exasperating, very.

Mr. Horton, the rancher, was brisk, confident and provoking, quite.

For instance, Mr. Platt was trying to minimize Mr. Horton's statement that he "knew ever acre of the Leiter ranches" and rode over them frequently in his journey from his ranch in Clearmont.

"What time did you get to the Leiter ranches, on these rides?" the attorney asked.

"That depends on when I left," the rancher clicks out.

A moment later, Attorney Platt queries: "How many acres of grain did you grow in 1907?"

"O," replies J. L. Horton, "about the same as in 1907."

"And how many did you grow in 1907?"

"I don't recall."

Foundered Criticism of Joe.

The theme of Mr. Horton's testimony was fourfold. The quartet of business errors which he chalked up against Mr. Leiter, his neighbor out west, included:

1. Charging \$5 an acre foot for water from the Lake DeMet reservoir, as acre foot, for those of us who would around in gutter feet of water yesterday, is that amount of water which is required to cover an acre of ground to the depth of one foot.

2. Charging tenants on best farms an annual rental of \$25 per acre.

3. Building three elevators on the ranch properties.

4. Subdividing the Leiter estate, in 1911, into smaller portions, with a view away from grazing to intensive farming of sugar beets and a consideration of truck farming.

And the reasons for it.

A charge of \$5 per acre foot for Lake DeMet stored water would, he declared, "be prohibitive under present conditions," and a farmer "couldn't afford to buy it for an acreage of over 100 acres."

Worse, he intimated, there was no water at the right of the ditches to purchase reservoir water, and the Leiter estate suffered.

The average rent per acre for best lands, Mr. Horton pointed out, was \$15, and \$25 would be "prohibitive" as much as the farmer could almost purchase an acre outright for that.

Regarding the three grain elevators, the witness recalled this conversation he had had with Mr. Leiter at the time of their construction:

"I kidded him about his monuments and asked him if he had built them to store hay and sugar beets."

Leiter's Rebuttal to Kidding.

Mr. Leiter had replied, Mr. Horton testified, "All right, that's some of the money the government won't give."

Mr. Horton epitomized his view of the feasibility of attempting truck farming on the prairies in this sentence:

"What a dense head of cabbage would flood the market."

Earlier in the day Attorney Cranston, attorney of counsel for the countess read the record of a long deposition from Mr. Horton's brother, Frank, operator of the fashionable H. F. Bar dude ranch. Legally, the deposition dovetailed with the other Mr. Horton's testimony.

Extra legally, it gave easterners something to think about, since it reports Mr. Horton as saying:

"We make more money off the horses than we do off the other live stock."

"A clue," Mr. Platt took no small pleasure in explaining to Judge Sullivan, is "any one whom Mr. Horton rode on an old horse and makes believe he is a red blooded American."

Court adjourns this noon until Tuesday morning.

Senate Beat Klan at Own Game in Woodlock Vote

BY ARTHUR SEARS HENNING.

(Chicago Tribune Free Service.)

Washington, D. C., March 31.—(Special.)—The Ku Klux Klan is the most secret of organizations, but at last it has met its match in secrecy and has been baffled thereby. The Klan must now doff its pillow case to the United States senate and take a back seat among the secret societies. The senate has outwitted the Klan, but how it did it is a secret which the Klan has failed to penetrate up to date.

The great secret is the roll call on the motion to confirm the appointment of Interstate Commerce Commissioner Woodlock, whose nomination was held over more than a year while various contingents of senators fought his choice for various reasons.

Open Opponents Disunited.

There were the insurgent Republicans, who were convinced that Mr. Woodlock was a tool of the railroad or Wall street, or both. There were the southern Democrats, who could not view the appointment of Mr. Woodlock with anything approaching approval.

Then there was the opposition in the commission occurred and President Coolidge filled it with a southern Democrat. Then the Jeffersonians came to the rescue, and Mr. Woodlock was not such a bad sort, after all.

Then there was Senator David Reed (Rep., Pa.), who viewed the future of the republic with forebodings when the interstate commerce commission decided a coal freight rate case adversely to Pennsylvania mines. Mr. Reed accused Mr. Woodlock of casting the vote in the commission that decided the issue adversely. He went the La Folletteite one better in conjuring visions of Wall street dictating the decisions of the interstate commerce commission.

Then the Invisible Foes.

Eventually, however, Mr. Reed was mollified. The commission reopened that coal rate case and President Coolidge publicly pledged himself to appoint a Pennsylvaniaite to the rate-making body at the earliest opportunity.

So gradually all of the opposition to Mr. Woodlock was removed that he, all secret, the opposition of the Ku Klux Klan. Mr. Woodlock was born in Dublin and is a Roman Catholic. Hence, declared the Klan, he would not do. In solemn conclave, presumably, the Klan registered its disapproval of his appointment and sent forth the decree that all senators valuing the Klan's esteem in the approaching primaries elections and future plebiscites would do well to vote against the Woodlock nomination.

Senators Take Lesson in Secrecy.

One day last week the nomination came before the senate, and, after prolonged consideration, the next executive session, it was approved by a vote of

53 to 24. The roll call, however, showing what senators voted for and against the appointee was not made public, as is the usual custom. Not in twenty-five years, it is said, has an executive session roll call on confirmation of an appointment been suppressed.

This circumstance immediately occasioned a general pricking of ears. There evidently was some strong, mysterious reason for suppressing this particular roll call. The next day, senators who voted against Woodlock moved to remove the seal of secrecy from the roll call. They failed to muster a majority. It then became apparent that a considerable number of those senators who voted for Woodlock were fighting the disclosure.

Fall Back on Old Rule.

They cited the senate rules enjoining profound secrecy concerning anything occurring in executive session, under which a senator was not even at liberty to tell how he himself voted in executive session without permission accorded by a majority vote removing the seal of secrecy.

There was an executive session, and it was an exceedingly lively one, according to report. Threats were made that if any senator told how he voted for Woodlock after giving the Klan reason to believe they would vote against him, now fearing that the Klan would visit vengeance upon them potentially for thus double crossing the invisible empire.

And the roll call still remains a secret.

APRIL

Welter-Mignon Reproducing
Records

For KIMBALL Reproducing Pianos
And All Welter-Mignon Actions

THE announcement of April releases features Debussy's music, and lists 19 numbers by this composer, eight of which he played himself. The Welter-Mignon was the only instrument for which Debussy ever recorded his own compositions. Walter Gieseking is included with two recordings of Debussy's music, and Alfredo Casella plays one by Debussy and one by Scarlatti. Henriot Levy, who is a composer with something to say and knows how to say it, plays two of his own numbers. George Liebling plays Juliet's Waltz, the Raff transcription of Gounod's melodious music. Note the variety in the following list:

COUNCIL RECORDS SHOWN AS BASIS FOR EXPERT FEES

**Faherty Lawyer Produces
Letter from Richert.**

BY PHILIP KINSLEY.
Council records of 1918 and 1919, showing the basis on which M. J. Faherty proceeded to pay three real estate experts nearly two million dollars in 1920, were introduced yesterday in the suit brought by THE TRIBUNE on trial before Judge Hugo M. Friend.

A letter from John A. Richert, former chairman of the council finance committee, dated April 9, 1919, addressed to Mr. Faherty, was introduced by his attorney, George W. Miller, in cross-examination of Carl Frank H. Cendfield, assistant chief of staff of the finance committee, who was called to the stand by the defense.

"In accordance with your verbal request I have had the bills of the real estate and building experts in connection with the opening and extension of Ogden avenue, amounting to \$24,677.36, checked, and will present them to the next meeting of the committee on finance for passage and approval."

"In the meantime this is your authority to voucher the same, the authority of the city controller to approve the same, and the city treasurer to pay the same."

Mr. Miller also presented a memorandum to the finance committee from the staff, signed by the late Maj. Miles, stating that the bills of the experts had been checked and found O. K. The following paragraph is considered of great importance by Mr. Faherty:

"The bills are in accordance with the arrangement with the experts, as provided by council order of Dec. 30, 1918, the fees of the real estate experts being based upon 1 per cent of the total value of the property appraised."

Rate of Compensation Fixed.
In direct examination by Attorney William Wilson, Capt. Cendfield said there was an order of the council, Dec. 30, 1918, fixing a rate of 1 per cent on the value of the property appraised to Waller, Lyons & Merigold.

A letter to Mr. Richert from Mr. Faherty, dated Dec. 16, 1918, gives this information:

"Relative to the compensation for the work involved, the real estate experts will work for the city on a basis of one per cent of the value of the property, which is two-thirds of the schedule rate of the real estate board on each parcel valued, \$50 a day to the expert for testifying in court on behalf of the city."

A list of the experts followed, giving the qualifications of each.

Quoted on Five Year Contracts.
"It such a matter as the five year contracts referred to here had been reported to the committee by the board of local improvements or by Mr. Faherty, would a minute have been made

BANKERS ASK LOWER INTEREST RATE ON LOAN TO ST. PAUL

Washington, D. C., March 31.—(AP)—The larger portion of the \$250,000,000 loan to the government by certain railroad bonds as a result of war period loans will not be paid in a reasonable number of years, the senate interstate commerce committee was told today by J. J. Hanauer, partner in Kuhn, Loeb & Co., New York.

Testifying regarding the Chicago, Milwaukee and St. Paul railroad receivership, he favored passage of a bill to reduce from 4 to 4 per cent the interest rate on the loans and to extend the maturity date.

Chairman Eastman and Commissioner Cox of the interstate commerce commission told the committee that their commission is determined to make a thorough, complete and accurate investigation of the St. Paul. Senator Gooding announced he would not press his resolution for a hearing to query into the road's office if the commission's investigation was to be complete.

of such action?" asked Attorney Wilson.

"If it was submitted to the committee on finance for action there would have been a minute made of the action," replied the witness. He had testified previously that there was no minute of action on the recalled five year contract and that he had no recollection of Mr. Faherty's discussing it with the committee.

Attorney John C. Farwell, on behalf of defendant Merigold, presented to the court the Merigold checks which were the subject of long debate and a court order. They were turned over to Attorney Wymouth Kirkland of THE TRIBUNE for examination. Mr. Farwell said he had been able to find 119 of the 123 called for by Mr. Kirkland and hoped to get the others.

**DAVIS TESTIFIES
SON TOOK BRIBE
UNKNOWN TO HIM**

Topeka, Kan., March 31.—(AP)—Testifying in his trial on a charge of bribery, former Gov. Jonathan M. Davis of Kansas today declared that his son, Russell, had acted without his knowledge in accepting \$12,500 in delivering a pardon to Fred W. Pollman, convicted banker. The son, who is being tried jointly, had asserted previously that his father knew nothing of the acceptance of the \$12,500. Young Davis said it was a case of taking advantage of an opportunity to make "some easy money," that he learned by accident that his father was issuing a pardon to Pollman, and that he merely got his father's consent to deliver the document and on his own account took the money that Pollman had offered.

**Former Student Held as
Others Study Court Acts**

George W. Jorgensen, 19, former student of the University of Notre Dame, was held to the grand jury by Judge John Allegretti in the boys' court yesterday in bonds of \$14,000 on eleven charges of passing worthless checks. Four students of Notre Dame, Ken Cook, A. A. Kirk, Urban Hughes, and J. J. Jorgensen, were held for similar degrees in boys' problems, were guests of Judge Allegretti in court while their former fellow student was being tried.

LIMIT DEBATE ON IMPEACHMENT OF U. S. JURIST

**Hope to Reach Vote on
English Trial Today.**

Washington, D. C., March 31.—(AP)—The house devoted its entire session today to debate on the resolution to impeach Federal Judge English of Illinois without reaching a vote. In an effort to expedite action, however, an agreement was reached to limit debate, and an adjournment tonight six hours retarded for members to discuss the case.

Leaders hope that a vote will be reached by tomorrow night, although the probability of a successful roll call made them doubt whether the windup would come before Friday.

Define Duties of House.
Clean definition of the duties of the house as restricted to investigation, similar to that of a grand jury, was brought out by several members as disputes over guilt or innocence of the judge developed.

Speaker Longworth's warning of yesterday not to quote the professional language the judge is alleged to have used in court, however, did not prevent members from referring to the forbidden words by initial letters, word pictures, and pauses.

Attacks St. Louis Paper.
Representative Hawes (Dem., Mo.), sponsor of the original resolution to impeach the judge's conduct, contended that "restoration of justice" should be the only object of the house with no element of politics entering the situation. The part of the St. Louis Post-Dispatch in pressing charges against the judge was attacked as "exceeding the bounds of public duty" by Representative Arnold (Dem., Ill.) and commended as a public service by Representative Christopher (Rep., S. D.).

Several members have announced they will ask for a separate vote on each of the five articles of impeachment, and this is expected to delay the final vote.

**BRITAIN SPENDS
\$22,220,000 ON
IRAQ IN A YEAR**

(Chicago Tribune Press Service.)
LONDON, March 31.—The British mandate over Iraq cost Great Britain \$22,220,000 (\$22,220,000) for the fiscal year just ended, estimates published today covering the foreign colonial and dominion services revealed. These estimates total \$1,588,000 (\$1,588,000). The figures show that the Iraq and Palestine defense costs Great Britain \$3,500,000 (\$1,500,000), not including another \$400,000 (\$400,000) for the maintenance of native forces. The administration costs make up the rest of the estimate.

The estimates for diplomats show that the ambassador to France gets \$2,500 (\$12,500) a year, with a foreign allowance of \$12,500 (\$62,500), while the ambassador to Washington gets the same salary, with a \$14,000 (\$70,000) allowance.

HOOVER ADVISES STATES CONTROL ELECTRIC POWER

**Federal Regulation Is
Not Practical.**

New York, March 31.—(AP)—State control of electrical power was urged in an article in the Savings Bank Journal by Secretary of Commerce Hoover, in a public today, in which he set forth his objections to the federal government assuming control of power companies.

Conceding that regulation is necessary, since the states have given the right of monopoly, Mr. Hoover also asserted that electrical companies provide a commodity at pre-war prices, that the total distribution of interest and dividends has never as a whole exceeded 8 per cent, and that the industry has expanded to meet public demand fourfold in the last ten years.

This statement, he said, proved that the regulation of the state has been effective. Answering the argument of opponents of state control that issues of stock might be watered, he said that with intelligent regulation of rates, based on true property valuation, watered stock could not affect rates.

The argument that power carried interstate from a central generating plant was comparable to railway carriers he pronounced "an illusion."

He pointed out that federal control of railways was imperative to protect the shipper who must send freight across several states. On the other hand, he said, the user of power was interested only in its cost in its immediate vicinity.

**BIG TIM GETS 90
DAYS TO PAY OR
DODGE THAT FINE**

"What's a little matter like \$20,000 between friends?" Big Tim Murphy generally inquired yesterday as Deputy United States Marshal Abe Abrahamson served him with official notice that he owes that much to the government. The amount represents a fine imposed on Murphy by former Judge K. M. Landis when he also sentenced Tim to the federal penitentiary for the Dearborn station mail robbery.

Big Tim has been given ninety days to pay the bill, swear he is a pauper, or finding some other way of evading it. Meanwhile he is holding court "at home" in his suite at the Webster.

**British Treasury Estimate
Shows \$70,000,000 Deficit**

LONDON, March 31.—The Exchequer accounts, issued tonight, show a deficit of more than \$70,000,000 (\$70,000,000). The revenue for the year 1925-1926, \$458,000,000 (\$458,000,000), was less than the expenditure of \$528,000,000 (\$528,000,000). The deficit is the largest since 1914-1915.

PERUVIANS START TO DESERT LOST CAUSE IN AFRICA

**Pin Hopes on Diplomacy
Sponsored by U. S.**

BY GERALD MARTIN.
(Chicago Tribune Press Service.)
ARICA, Chile, March 31.—Peruvians' chances for a victory in the Tacna-Arica plebiscite are fading away and its supporters are planning their faith on a diplomatic settlement sponsored by the United States. This puts the entire question where it was when President Coolidge, the architect, began his jurisdiction. Señor Freyre, the Peruvian delegate, abstained from voting at this afternoon's meeting covering the registration progress, which has been determined not to recognize the registration, which totals 1,500 voters to date, 90 per cent of them being Chileans.

Yesterday the Peruvian transport Ucayal carried a boatload of people north from Tacna and Arica, and tomorrow the transport Huallaga will carry more, including the registration officials. It is evident that all the Peruvian officials and workers, outside of the voters, are leaving.

While Señor Freyre is silent regarding his departure, intimating that he is awaiting word from Washington, it is evident that he plans to go to Lima. The Peruvian voters' camp is at a standstill.

Maj. Gen. William Lassiter, the American president of the plebiscitary commission, refused to make any statement. Everybody is silent, but it is evident that the Peruvian chances here are finished.

**CITY CHIEFS TO
HONORECKLAND
AT RITES TODAY**

SCRIPPS' ESTATE IS LEFT IN TRUST FOR WIDOW, SON

Hamilton, O., March 31.—(United Press.)—The will of Edward W. Scripps, late publisher and founder of the Scripps-Howard newspapers, who died at sea off the coast of Liberia, Africa, on March 11, was offered for probate here today.

The will, a brief document, refers to a large instrument, a trust agreement which was entered into by E. W. Scripps with Robert F. Scripps, his only surviving son, on the same day the will was executed.

By the terms of the trust agreement Mrs. E. W. Scripps, the widow, left the life use of Miramar, the large California ranch of the Scripps family, and an annual income of \$60,000 and the right to live in the property of the trust estate. A daughter, Mrs. Thomas E. Meanley of La Jolla, Cal., is left an annuity of \$40,000.

After minor bequests of annuities and a flat sum bequest of \$25,000 to Harry L. Smith, secretary to E. W. Scripps, the entire residuary income of the trust is left to Robert F. Scripps and his children for the life of the trust, which is to remain in existence until the death of the youngest of R. F. Scripps' children. No estimate has yet been placed on the value of the estate.

Let the Snow Come by Tons; Elmer's Happy

Even Static Can't Wreck His Evening's Fun.

BY ELMER DOUGLASS.

Let come snow, rain, or swish-swash static—and there was plenty of all three at this receiving point—so long as we have a continuous flow of snap-snap, enjoyable entertainment like that of last night.

Armour Institute Glee club, Dr. Dan. Prothero directing, WLS, 7:25, Chicago station, its Crete plant being swamped. Couldn't ask for richer static, short score number, very brilliant in air and accompaniment, sung splendidly by Virginia Dodge Blumstein, soprano.

WGN's 3 to 9 New York program was cut because the relaying telephone line fell down, so the Drake concert and the Blackstone string quartet and the Brown university musical club's after-banquet concert, held last night, were not heard. The program already has welcomed massed vocal ensembles, 71 do so now, for the bangy club's selections were downright and outright enjoyable.

And the way Jack See, xylophone virtuoso, tripped merrily along to one after another—well, it was just what I wish I knew the first name of Mr. See, the virtuoso soloist who has been playing so well how to combine singing with diction.

In the presentation of the cantata, "The Holy City" (Gaul), by the Remond Evangelical English Lutheran church choir and soloists, WGN, 10:10 to 10:15, we had a splendid forecast of the glorious Easter music we are to hear much of later in the week. This cantata is exceedingly popular, with interesting solo, and much work, not altogether easy, for the chorus. Both choir and soloists sang with a fine and enthusiasm that was in harmony with the composition.

The WLS studio trio, 9:10, remodeled Haydn's birthday by giving a series of this composition, a work, to the KTV 5 o'clock Edison concert, was a choice one and I wanted especially to get the name of the first finished, musically endowed pianist, but the announcer.

POPP CREDITORS GIVEN HOPE OF 80 CENTS ON \$1

Creditors of Fred W. Popp, banker, who suicide several years ago was killed by the failure of the Logan Trust and Savings bank, of which he was president, may collect at least 80 cents on the dollar, according to a final report on the estate filed yesterday in the Probate court.

Mr. Popp's estate, which totaled \$18,867, was divided into \$40,000 of administration expenses, according to the report. But this does not include holdings in other estates. These holdings, which are expected to be worth \$60,000 in years to come, the Union Bank of Chicago, trustee for the creditors, believes, and they will not be sold until they reach that value.

Thus the creditors, whose claims amount to \$115,000, may get back four-fifths of their money.

W. A. Dorre Gets License to Rerel Divorced Wife

A marriage license was issued yesterday to William A. Dorre, 36, wealthy manufacturer of household specialties, and his former wife, Mrs. Violet Dorre, 23, from whom he was divorced less than a month ago. Mrs. Dorre in her suit against her husband cited numerous acts of cruelty. One could be reached at the Dorre residence, 1311 Lawrence avenue, last night, to ascertain when the second marriage would take place.

RADIO PROGRAMS FOR TODAY

(Standard time throughout.)

Today's Winners in W.G.N.'s "Old Time Favorites" Radio Contest

TODAY'S first prize of \$50 in the Old Time Favorites contest conducted by W.G.N., The Chicago Tribune station on the Drake hotel, is won by Mrs. Cecil McWhethy, R. R. 4, Box 24, Clinton, Ind. The three songs are: "I Want a Girl Just Like the Girl That Married Dear Old Dad," "Good-by, Boys," and "Wait 'Till the Sun Shines, Nellie."

Beginning this evening the weekly French lesson will be given at 5:40 instead of 6 o'clock. This series is being presented by Prof. H. Croissant. It is designed to be of assistance to students of French, as well as those who know nothing of the language. Copies of the lessons are sent to listeners who wish them.

Listen tonight at 10 o'clock for the ultra-humorous happenings incidental to the arrival of Lisa, the southern sweetheart of Sam, who, with his partner, Henry, appears on W-G-N every night. Sam 'n' Henry furnish humor that is different from any other on the air.

"Old Time Favorites" are to be presented tonight at 6:45 and at 10:10 o'clock. The winners for tonight will be announced in THE TRIBUNE one week from today.

This morning during the Home Management period at 11:30 o'clock Jenny Wren will talk on "Menu for Good Friday." Every day at this time she discusses a subject of interest to housewives.

WLIB PROGRAM

The program at WLIB, the Liberty Weekly station on the Drake hotel, will open this evening at 7 o'clock with "The Old Fashioned Alibi." This is to continue for ten minutes. At 7:10 o'clock "The Millions Sing" will be given. Each of these features is being presented 15 minutes earlier than usual this evening to permit a New York program to begin at 7:15 o'clock.

Correll and Gorden, the popular harmony team, will give a special edit of fun and song at 11 o'clock tonight. This nightly period of amusement by Correll and Gorden has become one of the best liked attractions on the air. Hear them tonight.

11:30 to 11:45 p. m.—The Old Fashioned Alibi.

11:45 to 12:30 p. m.—The Millions Sing.

12:30 to 1:15 p. m.—New York musical program.

1:15 to 1:30 p. m.—Correll and Gorden.

1:30 to 2:15 p. m.—Liberty station musical ensemble, Tommy Thacker's Drake hotel dance orchestra, and Charlie Straight's Renaissance cafe orchestra.

Brighten Your Home 1) EASTER SUNDAY with an Orthophonic Victrola

IT is surprising how much real enjoyment this wonderful instrument will give your family and friends. You can hear Marion Talley's superb voice. Listen to the glorious Mormon Temple Choir or dance to the delightful music from "Sunny"—all so perfectly reproduced that it is difficult to distinguish from the original performances. Hours of intense enjoyment will be yours when you are the owner of an Orthophonic Victrola.

This remarkable instrument reproduces the low tones, high tones and overtones that were formerly lost, resulting in a range and volume far exceeding anything you have ever heard before. It catches the softest whisper of sound, or pours forth the mightiest floods of harmony. When it plays dance music, the orchestra seems to be in the same room.

Delivery of the Credenza Model can be made for Easter if you act at once. Easy terms are gladly arranged.

One of These Two Pens Will Suit You Perfectly Both are Waterman's

Each is as perfect as a pen can be made. They differ only in size and price. For more than forty years the pre-eminence of Waterman's pen has been recognized. Each feature of excellence is outstanding. Every point is iridium-tipped and hand ground. Every holder is pure Brazilian rubber. Every filling device is a perfected mechanism.

Both pens shown are 018 models. They are made in red, mottled and black holders, with flexible lip-guard to protect cap and pocket clip to prevent loss. May be had with different pen points to suit different styles of writing.

MARKET RALLIES RAPIDLY; BANKS SUPPORT ISSUES

Brokers Predict Slump Has Been Broken.

YESTERDAY'S AVERAGES

	High	Low	Last	Net
25 railroads	84.32	82.21	84.07	+3.76
25 industrials	123.63	122.92	123.00	+4.39
25 stocks	114.13	113.73	113.94	+3.37

(Copyright, 1932, by The New York Times.)

New York, March 31.—(Special.)

The first rally in the stock market in

eight days developed shortly after mid-

day today, and carried representative

stocks up almost as quickly as they

had declined on the previous day.

Banking support for pivotal issues in

the market became evident and the shorts

partially covered. The result was ad-

vance which brought net gains of from

three to 15 points in the run of industrial

stocks and of 2 to 15 points in the rail-

road shares. The rebuying of stocks by

the shorts was just as hurried and con-

stant as was the liquidation of the pre-

vious day.

Some today were 2,000,000 shares, of

which 750,000 were transferred in the

last hour of trading. A total of 510

shares was dealt in. The industrial

average as measured by the average of

twenty-five representative stocks gained

1.37, twenty-five railroad issues gained

1.76. The market as a whole, as meas-

ured by fifty stocks, was up 3.37 for

the day.

FINANCIAL NOTES

Foreign loans aggregating \$18,100,000 will

be offered to American investors today. An

issue of \$3,000,000 Dominican Republic

customs administration, 2 1/2% per cent, and

fund bonds will be priced at 98. Two other

issues are for the Province of Buenos Aires,

Argentina, 2 1/2% per cent, and 7 per cent

bonds priced at 95% and \$4,200,000

10 year 7 per cent bonds priced at 98.

Total of \$40,901,025 was distributed in

cash dividends during first quarter of 1925

by the so-called Standard Oil group. This

was an increase of \$6,545,005 over payments

during the first quarter of last year, and

were the largest made by the Standard Oil

group for the first quarter of any year since

dissolution, excepting the first quarter of

1913, when an extra dividend of \$38,138,

533 was made by Standard Oil of New Jer-

sey from repayment of loans to former sub-

sidiaries.

Private banking loans to the Van Swer-

den brothers of Cleveland, based on the col-

lateral of their stock holdings in the five

Nichols Plate merger roads, it is reported,

have been extended for another year, enabling

Several snowstorms curtailed live stock receipts yesterday and practically all the country, and in various ways hog leading the upward movement. Advances of 25c were general in the	

hog trade, with spots up \$5.00 in wild early trading, lifting the average price to \$11.75, and top to \$12.50, against a top and average of \$11.34 and \$11.45, respectively, Monday. Only two or three local packers entered the trade, due to the meager supply available. Fresh arrivals estimated at 10,000, including 20 per cent to packers from other points, were smallest of the year for Wednesday. The eleven market total showed a decrease of \$6,000, compared with a week ago. The week's receipts at Chicago promise to total the smallest in nearly six months.

The small showing of better grades of beef steers, scored further slight advances, under the strengthening influence of light supplies and prospects of another small run of 7,000 for today, against 12,537 the previous Thursday. Prime 1,400 lb Nebraska steers topped at \$10.75, highest since March 13 and 25c above Tuesday's peak. Choice 1,300 lb Nebraska reached \$10.60, which was also paid for 1,176 1/4 lb cattle. Yearlings averaged 1,069 lb brought \$16.40, with 958 lb averages up to \$16.25. Butcher stock sold mostly steady. Canners and cutters and bulls were little changed. Stockers and feeders sold slow and weak. Calves were on par with the recent sharp decline, at about \$2.00 under a week ago.

Lamb Declines Checked.

Declines in lamb prices were checked, as a result of curtailed supplies. Considering quality and wet fleeces, sales were mostly 15¢ to 25¢ above the general selling previous day. Choice 88 lb fed western lambs—topped to shippers at \$12.50, with packers paying upwards to \$12.25. Good 93 lb Colorado reached \$12.75, with 103 lb averages at \$12.75. Fall shorn heavy weight lambs brought \$12.50, and freshly shorn 91 lb averages \$2.50. The first lot of genuine native spring lambs of the season averaged 62 lb and sold to Swift at \$20.00, being of unusually fancy quality. First year ago were fair kinds at \$16.50 and two years ago, genuine at \$21.00. Aged sheep shared in the 15¢ to 25¢ advance, 93 lb ewes standing highest of the month. Shearers lamb were dull.

Receipts at Chicago for today are estimated at 7,000 cattle, 15,000 hogs and 9,000 sheep, against 8,490 cattle, 12,537

PATHE EXCHANGE DECLARES STOCK CASH DIVIDENDS

Favorable dividend action was featured yesterday in corporation news announcements. The Pathe Exchange declared an initial dividend on the common stock of 75 cents and a stock dividend of 6 per cent. The Big Lake Oil company declared a 20 per cent distribution. On Feb. 18 the company paid a 17 1/2 per cent dividend.

Citic Steel stockholders have approved an issue of \$12,000,000 6 per cent bonds. The preferred stock plan was approved by the required amount of stock, but lacked the necessary number of individuals. Time was extended for further proxies. Great Northern Ore has declared a dividend of 70c on the certificates of beneficial interest. A dividend of the same amount was paid Dec. 28, 1925.

BUSINESS SHOWS NO EFFECT OF SLUMP IN STOCKS

BY O. A. MATHER.

How little the collapse in the securities markets has affected business and industry, and also how little justification for the speculative smashup rests in general conditions, are shown in yesterday's news.

cheerful news came from the steel, automobile and railroad fields. The steel trade has repeated with little variation its performance of recent weeks. The Iron Age says: "The rate of new buying in the final week of March still showed the gain over February that had been reported in the three preceding weeks. Some consumers have been delaying purchases to the point of being unable to get deliveries when wanted. Hence the absence of this feature of the time stock market decline—speculations and postponed deliveries of steel bought on time contracts."

Steel Production High.

"Interest has centered in the continued high production of steel, in view of predicted falling off in some lines of consumption and of the exceptional rate of the steel corporation's activities, which for part of this week has been at 100 per cent of practical capacity. February production of steel was the largest in twelve months, being at the rate of 1,144,000 tons a day compared with 1,044,000 in February, 1925. The March estimate output of 1,200,000 tons, the lowest the same month in the three preceding years. On the other hand, the March output of steel ingots may have established a new record. The production of malleable castings was the largest in more than a year, except for January and last October. The recent steadiness of most finished steel prices has been noteworthy."

Record Motor Sales Reported.

Reports of record sales came from several motor car concerns. The Hudson company shipped 31,500 cars in March, compared with 32,000 in February and 17,000 in March, 1925. The company established another weekly record last week, when dealers delivered 3,202 cars. New orders for future delivery last week were 3,552, compared with 3,461 a year ago. The Chrysler company also set a new record in retail deliveries last week, making a gain of 35 per cent over a year ago.

General Motors dealers reported that sales in the first three weeks of March averaged 3,000 cars a week, compared with approximately 2,500 cars a week in the first three weeks of February, when 65,971 cars were sold. The spring selling season opens with less than a month's supply of cars in dealers' hands.

Confidence in the future on the part of the railroads was manifested by equipment purchasing. The New York Central, Michigan Central, and Cleveland, Cincinnati and St. Louis roads will purchase 5,682 cars at a cost of \$11,021,000, and sought authority from the interstate commerce commission to issue 111,700,000 of equipment trust certificates. The Pennsylvania railroad placed orders for 5,682 cars at a cost of \$11,000,000 for engines aggregating about \$12,000,000 with the Baldwin Locomotive Works.

P. & W. V. to Retain Its Present Capitalization

New York, March 31.—(AP)—The Pittsburgh and West Virginia railway today decided to maintain its present capital structure and to place for stock on a per cent annual dividend basis. Payments will be made quarterly, beginning April 30, 1926. Early this year stockholders authorized a change in the capitalization, providing for the issuance of 152,000 shares of 6 per cent preferred stock and an issue of 488,000 common shares of \$100 par value. The nonvoting provisions for the preferred stock were criticized by the interstate commerce commission in denying approval of the plan.

RAY RICE has the honor to announce Chicago's largest realty project. The family seat of Wirth S. Dunham, Esq., is being converted into Dunham Woods—Chicago's First Suburb.

In 1835 the nucleus of the 3,000 acre holding was chosen by a pioneer government surveyor, Solomon Dunham, Esq., as being the most attractive and desirable spot in the whole region now termed Metropolitan Chicago.

Through all the years since the original grant was signed by President Polk, the property has remained in the Dunham family, and the natural beauties of the old-world grounds and magnificently timbered park have been preserved.

Now Chicago's newest Rapid Transit will enable homeseekers and investors to enjoy and profit from the division and restriction of Chicago's oldest great estate—located on two railroads and intersected by two main highways.

Dunham Woods is the largest realty development in Chicago history. Naturally it will be undertaken by Chicago's foremost developers.
